Aug 24, 2021 Leesburg, Virginia
Approved for release:

EIT Avionics, LLC will be exhibiting our helicopter at the inaugural AOPA Aviator Showcase on Friday, August 27, 2021 at KHEF (Manassas Airport). **Stop by our Robinson R44 II** and see our new Flight Operations Data Recorder (FODR) which is STC and PMA approved! Learn how our HFDM solutions and analysis software can save you time and money.

The EIT Avionics FODR® is our HFDM data recorder solution capturing 21 channels 5 x per second. Uniquely, FODR® interfaces with ESAID, a display and annunciation device, to enhance IN FLIGHT situational awareness of critical parameters, and includes FODR View user software.

ESAID® calculates density altitude, power, hover and airspeed performance limitations twice per second, giving the pilot unprecedented situational awareness. FODR® and ESAID® are FAA STC approved on the Robinson R 44 II helicopter.
