November 15, 2021 Leesburg, Virginia  
Approved for release:

EIT Avionics LLC proudly announces our newest dealer and installation center, Frederick Flight Center and Advanced Helicopter Concepts at Frederick Airport (KFDK). Neal Lanning and his team are Robinson helicopter experts and have been in business more than 3 decades.

Contact them today at 240 529-5500 and learn how our products are a great upgrade for your Robinson R44 II!

The EIT Avionics FODR® is our HFDM data recorder solution capturing 21 channels 5 x per second. Uniquely, FODR® interfaces with ESAID, a display and annunciation device, to enhance IN FLIGHT situational awareness of critical parameters, and includes FODR View user software.

ESAID® calculates density altitude, power, hover and airspeed performance limitations twice per second, giving the pilot unprecedented situational awareness. FODR® and ESAID® are FAA STC approved on the Robinson R 44 II helicopter.
