

July 13, 2022 Leesburg, Virginia. Approved for release:

EIT Avionics is now a subsidiary of EIT 2.0, LLC.

EIT's wholly owned subsidiary, EIT Avionics, LLC, will continue as a subsidiary of EIT 2.0, LLC with no impact to products or services.

EIT Avionics is known for FODR® our HFDM data recorder solution and ESAID® our touchscreen display and annunciation device. We are taking the next step by focusing our talents and energy on the future, and expect to announce several new products in 2022.

Zollner Elektronik AG has acquired the EIT electronic manufacturing services division. Zollner Elektronik AG is the market leader in Europe's Electronics Manufacturing Services sector. A family-owned company with headquarters in Zandt, Germany, it was founded in 1965, and has grown to become a global player with over 12,000 employees and 20 locations around the globe.

About EIT:

EIT was founded by Joe May in 1977. For over 45 years, EIT has served customers in the industrial, communications, aerospace, defense, and medical markets while expanding into a multi-site, multi-million-dollar business. EIT maintains ISO 9001, ISO 13485 and AS9100 certifications, and is an ITAR registered business.
